

# STATE-BY-STATE GREEN ENERGY UPDATES

## UTAH

- **Legislation**

- In March 2018, Governor Gary Herbert signed a law that extends Utah's \$1,600 solar tax credit for two more years. The credit will begin to phase out in 2021.
- Utah also passed a consumer protection measure requiring solar companies to provide a disclosure statement on contract provisions to all residential customers.

- **Incentives**
